

Spring and Fall Clean Up

Twice a year Clearfield City's Public Works Department schedules two weekends in spring and fall during which Clearfield residents can drop off acceptable items at the lot south of the Public Works Shops located at 497 South Main. On those dates, the lot will be open between the hours of 9am and 4pm (Thursday – Saturday). Residents must be able to unload their own items; city employees will only be on site to monitor activities.

Those taking advantage of this service must present a valid picture I.D. showing proof of Clearfield residency, such as a driver's license or utility bill.

The city will not be able to accept material that cannot be deposited in the land fill, including:

- tires
- hazardous waste such as used oil, paint, solvents and other chemicals
- electronics, such as televisions, microwaves, computers, etc.
- any items with Freon

The city will **not** accept on the above dates:

- household garbage
- commercial garbage

The city can accept car batteries; however, they must be separated so they can be placed on a pallet. A dumpster will be on site during the spring and fall clean ups for disposal of metals. Residents will need to bring the items to the Public Works Shop and unload them into the dumpster. Please separate your green waste from the rest of your delivered waste. Green waste consists of biodegradable materials such as lawn trimmings, leaves, tree branches and limbs not to exceed four feet in length. City employees will not accept material that does not meet these requirements and dumping in containers after hours may be subject to ticketing. You can make arrangements with the city for at-home metal pick-up, as our schedule permits, by calling (801)525-4402.
